SUPPLEMENTAL ACTION

Examiner's amendment appears below.

Claim 33 is amended because of a minor typing error, the term "identitifier" is now replaced with "identifier".

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Michael Martensen on October 9, 2007.

AMENDMENT TO CLAIMS

33 (Currently Amended). A method for identifying distribution channel participants comprising:
generating a transaction record comprising business and spatial data that identifies at least one channel participant with a first degree of precision;

geo-coding spatial data within the transaction record to determine a transaction spatial identifier for the transaction record;

providing a reference record database comprising a plurality of reference records wherein each reference record comprises business and spatial information having a second degree of precision, and wherein the second degree of precision is greater than the first degree of precision and each reference record is associated with a reference record spatial identifier, said reference record spatial ~~identitifier~~ identifier being determined by geo-coding spatial information within each reference record; and

Art Unit: 2163

determining at least one match between the transaction record and the plurality of reference records based on a comparative analysis of both lexical matching of transaction record business data to reference record business information and association of the transaction spatial identifier with reference record spatial identifiers, storing in the reference record database a match identifier associated with the at least one match between the transaction record and the plurality of reference records.
